PROFILE

Fresh Software Engineering graduate with hands-on experience in React and Laravel, gained through an internship and personal university projects. Skilled at building clean, responsive web applications with a strong passion for problem-solving. Seeking an internship or junior developer role to further develop my skills and grow in a professional environment.

WORK EXPERIENCE

Wintech Software Development 2024 – 2025

Web Developer

- Assisted in building and maintaining an Education Management System using Laravel.
- Supported development of a Library Management module within the system.
- Helped with database improvements and testing of new features alongside the team.
- Prepared user documentation and guidelines.

KEY ACADEMIC PROJECTS

DLPOS — POS Management System (2025)

Technologies: Laravel, MySQL, jQuery, CSS

- **Role:** Solo Full-Stack Developer
- Dual-interface POS + inventory system — cashier terminal and admin dashboard with multi-payment checkout, role-based access, revenue/stock analytics

Real Estate Listing Platform (2026)

Technologies: React, Laravel, MySQL, jQuery, Tailwind CSS

- **Role:** Full-Stack Developer
- Built a property listing platform with search/filtering by location, type, price, and bedrooms, plus an admin dashboard for listings, users, and revenue.
